1. Introduction

This project aims to build an online portal for Logistics Company to maintain the order details and tracking facility for Customers.

Logistics Admin will have the privilege to add order details and its status. Customers will have the privilege to search and know about the order status.

2. Home Screen

Home screen will have details about the Logistics Company name in the Header. It provides three options Login, Sign Up and Track

Details about the company to be provided in the middle of the page. Field should be text field that accepts Alphanumeric and maximum of 200 characters.

3. Logistics Admin Sign Up

Sign up page will have the below details and metadata as follows

First Name	Alphabets Only. Mandatory Field
Last Name	Alphabets Only. Mandatory Field

Employee ID	Numbers Only. Mandatory Field
Password	Alphanumeric
Confirm Password	Alphanumeric

Capital Logistics

First Name	<input type="text"/>
Last Name	<input type="text"/>
Employee Id	<input type="text"/>
Password	<input type="password"/>
Confirm Password	<input type="password"/>

Submit

Cancel

On Submit, user should be shown with below screen. Hyperlink should be provided for "Login" and that should land User in Login Screen.

Capital Logistics

Account Registration is succesfull. Please click here to Login!

4. Admin Login

Login screen will be shown in two ways. Old Admins can land in Login Screen by clicking the “Login” radio button in Home Screen.

Newly on boarded admins can go to Login screen either by clicking on Login in Home Screen or by clicking Login in Registration confirmation screen.

The image shows a login form for Capital Logistics. At the top, the text "Capital Logistics" is displayed in a blue, italicized font. To the right of the text is a small black silhouette of a person. Below the text and icon, there are two input fields. The first field is labeled "Employee Id" and the second field is labeled "Password". Both labels are in a blue, italicized font. Below the input fields, there are two buttons: "Login" and "Cancel". Both buttons are blue with white text.

5. Order Section

Once the admin Logs in, he will be taken to order section page. A table should be shown with below values. New Row should get populated to enter below values on clicking “Add New Entry”

- i. Order No – Alphanumeric values, maximum of 20 characters and mandatory field
- ii. Placed on – Should be a date picker. Future Dates are restricted.
- iii. Courier Name – Alphanumeric , maximum of 30 characters and mandatory field
- iv. Status – Drop Down with values , Delivered, Shipped, Order placed and Returned.

After adding required rows, user can submit the changes by clicking on Submit Button. The values should get stored in db. Logout Button is present at the top.

Order No	Placed on	Courier Name	Status
436346346	Oct 10 2021	DTDC	Shipped 
463463464	Sep 19 2021	Delhivery	Delivered 
486575475	Oct 5 2021	Professional	Returned
